My background is in finance and operations. I started my career in consulting, then moved to corporate finance working for Naspers and being responsible for the e-commerce activities (marketplaces, classifieds, price comparison engines and online payments). I started my MBA journey in 2016 and my life changed significantly since then. MBA helps to stop, analyze, get different perspective and meet fantastic people. I was leading big M&A projects until I was headhunted by the company based in Central America to expand local company regionally. Now I am changing fintech space in the country to build more tech savvy society and ensure financial inclusion on the market via cutting-edge technologies and solutions. I am Agata Ruta and I highly recommend joining our MBA Family.
