

*Agnieszka Skotarek-Wiśniewska  
TE Connectivity KISSLING  
Integrated Supply Chain Manager*

*My MBA story began with a visit on MBA open day in May 2017. I was not convinced into which program I would like to apply and if this is something for me. When I had the chance to listen to Anna Matysek-Jędrych, I immediately realized this is it. I applied, went through the tests and the opening meeting with Tadeusz Kowalski and it was the most of the challenging and inspiring meetings I ever had. Then the fun began. It was the most inspiring time for me during those 2 years. Not only I had extended my connections, I felt to be a valuable part of the program, my input was listened and I was challenged through the months on many projects, workshops, business insiders and meetings with professionals who are deep experts in their areas. At the beginning I was asked to put the personal goals which I want to achieve. After 2 years when I read my letter to future myself, I was astonished. I achieved every single listed goal and much more of that. This was the proof for me, I did it – not the notes I got, not the projects, but every ticked goal. After the MBA I am a different person, self-confident with positive look into future. I was afraid if I am good enough, now I have the courage to say it – I am the best one. MBA helped me on every aspect of my life keeping up to date and learn much more than I expected. The support I got from my family was also tendinous. Without it I could not be where I am right now. I don't know what future brings, but I know for sure, I will manage – MBA gave me this strength.*
